St. Louis Catholic School is an equal opportunity organization that provides access to persons without regard to race, national origin or gender.

The availability of a class in each grade level (PK through 5th) and its subsequent size are dependent upon a minimum number of registrations per grade level being reached.

A stewardship program has been implemented to help with our fundraising efforts. Stewardship is defined as “the practice of considering and treating all things, the earth and one’s own life (time, talent, and treasure) as belonging to God and oneself as the manager, or “steward”. 1 Peter 4:10 states that “As each one has received a gift, use it to serve one another as good stewards of God’s varied grace.”

This program requires each family to commit to twenty hours of service per year. These service hours can be fulfilled with either working 20 hours or donating \$20.00 per hour. By incorporating this program, some savings will be felt in a number of budget areas, as well as partnership established to combine time, talents, and treasure of parents, faculty, and staff in providing a solid Christian education for all.

INTERNET POLICY

Internet and related technologies by all employees, volunteers, and students, is set forth below. Access privileges may be revoked, school disciplinary action may be taken, and/or appropriate legal action taken for any violations that are unethical and may constitute a criminal offense.

TECHNOLOGY APPROPRIATE USAGE POLICY ARCHDIOCESE OF SAN ANTONIO

“Technology is one of the most marvelous expressions of the human spirit in history; but it is not an unmixed blessing. It can enrich life immeasurably or make a tragedy of life. The choice is (yours), and education has a powerful role in shaping that choice. (National Council of Catholic Bishops, 1972, #33).”

St. Louis School is pleased to offer employees and students access to a computer for Internet access. To gain access to the Internet, all students must obtain parental permission as verified by the signatures on the attached form. Should a parent prefer that a student not have Internet access, use of the computers is still possible for more traditional purposes such as word processing, however, it will mean that in some instances the student will need to be removed from the computer lab while Internet instruction is going on.

What is possible?

Access to the Internet will enable students to explore thousands of libraries, databases, museums, and other repositories of information. Families should be aware that some material via the Internet may contain items that are illegal, defamatory, inaccurate, or potentially offensive. While the process of the school is to use the Internet resources for constructive educational goals, students may find way to access other materials. We believe that the benefits to students from access to the Internet in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. Therefore, we support and respect each family's rights to decide whether or not to apply for access.

What is expected?

Students are responsible for appropriate behavior on the Internet just as they are in a classroom or on a school playground. Communications on the Internet are often public in nature. General school rules for behavior and communications apply. It is expected that users will comply with school policy as referenced in the Parent/Student Handbook and the specific rules set forth below. The use of the internet is a privilege, not a right, and may be revoked if abused. The user is personally responsible for his/her actions in accessing and utilizing the school's computer resources. The students are advised never to access, keep, or send anything that they would not want their parents or teachers to see.

What are the rules?

Limited Access-Students may access only those Web sites to which, according to school policy, they have been given permission. They may also access Web sites that have been specified by the teacher for a specific class activity. If any student wanders outside of the boundaries of the site specified by the teacher or by school policy, this will be considered a severe clause infraction and entered into the discipline program. Consequences will include but are not limited to: Parental notification and the immediate suspension of Internet privileges for a period of no less than two weeks. If the behavior is repeated, Internet privileges will be suspended for the rest of the scholastic year.

Privacy – computer storage areas may be treated like school lockers. Administrators and or teachers may review activity to maintain system integrity and insure that employees and students are using the system responsibly.

Storage capacity – Employees and students are to store all materials as specified by the computer or classroom teacher.

Illegal copying – Students should never download or install any commercial software, shareware, or freeware onto a school computer unless they have written permission from the computer teacher. Nor should any students copy other people's work or intrude into other people's files.

Student Technology Guidelines

Inappropriate material or language – No profane, abusive or impolite language should be used to communicate nor should materials be accessed which are not in line with the rules of school behavior. A good rule to follow is never view, send, or access materials which you would not want your teachers or parents to see. Should students encounter such material by accident, they should report it to their teacher immediately.

Succinct Advice

These are the guidelines to follow to prevent the loss of computer/Internet privileges at St. Louis School.

1. Do not use a computer to harm other people or their work.
2. Do not damage the computer in any way.
3. Do not interfere with the operation of the computers by installing illegal software, shareware, or freeware.
4. Do not violate copyright laws.
5. Do not view or display offensive messages or pictures.
6. If you have a password, do not use it at home or give it to others to see.
7. Do not waste limited resources such as disk space or printing capacity.
8. Do not trespass into another's folders, work, files, or disk.
9. Do not access unauthorized sites.
10. Notify an adult immediately, if by accident, you encounter materials which violate the rules of appropriate use.

ST. LOUIS CATHOLIC SCHOOL
STEWARDSHIP
17/18

The practice of considering and treating all things, the earth and one’s own life (time, talent, and treasure) as belonging to God, and oneself as the manager, or “steward”.

1 Peter 4:10 “As each one has received a gift, use it to serve one another as good stewards of God’s varied grace.”

In an effort to provide parents with a means of giving time and talents for the benefit of the school, and to work toward operating the school on a more balanced basis, our stewardship program will continue through the 2017-2018 school year. This program will require parents of each child to commit to twenty (20) hours of service per year (ten (10) hours of service per single parent family). These service hours need not be served within the school, but many can be done in your home. This program combines time and talents of parents, faculty and staff to provide a Christian education for all students.

This commitment form should be returned with your child’s registration packet.
